

## MESSAGE OF THE ICREPQ SC CHAIRMAN

Dear Colleague,

It is our great pleasure to invite you to **ICREPQ'20- "18<sup>th</sup> International Conference on Renewable Energies and Power Quality"**, to be held in Granada, Spain, from 2<sup>nd</sup> to 4<sup>th</sup> September 2020.

Like you know we have decided to postpone the conference from 1<sup>st</sup> to 3<sup>rd</sup> April 2020 to 2<sup>nd</sup> to 4<sup>th</sup> September 2020 due to the rapid development of the COVID-19 contagious cases all over the world. The safety and health of our participants is our number one priority for that reason we have permitted that many presentations can be online.

This Conference, now in its 18<sup>th</sup> edition, is the major International Conference devoted entirely to renewable energies and power quality. Started in Vigo in 2003, is now established as a regular annual event.

Very successful ICREPQ conferences were held in Vigo (2003), Barcelona (2004), Zaragoza (2005), Palma de Mallorca (2006), Sevilla (2007), Santander (2008), Valencia (2009), Granada (2010), Las Palmas de Gran Canaria (2011), Santiago de Compostela (2012), Bilbao (2013), Córdoba (2014), La Coruña (2015), Madrid (2016), Malaga (2017), Salamanca (2018) and Tenerife (2019). Now we want to organize a very unforgettable conference in the University of Granada.

This Conference, like its predecessors, is a forum for specialists engaged in the fields of renewable energies and power quality, can discuss current progress and future developments and trends in these two important areas, and also in those topics like: electric vehicles, electrical machines and drives, power electronics, control strategies, monitoring and diagnostics, etc, that are connecting with them. For to exchange information and experience of developments, trends and applications, from researchers, academics and professionals. Topics related to practical applications, operations, maintenance and teaching are also highly encouraged.

You are strongly encouraged to participate and submit papers to the ICREPQ'20 Conference for regular and special sessions. Potential authors and other interested participants are most welcome to visit and discover the information of our conference web page. English will be the working language for all printed material, presentations and discussions.

If you attend to ICREPQ'20 then you can visit free of charge the fantastic Alhambra, a complex of monuments, that is a "jewel" of Arab and, of course, we'll organize also the visit to the cathedral and the most important monuments of the wonderful city of Granada. All of you are welcome!.

I would appreciate if you could send this information to Colleagues of yours that might be interested.

Thank you very much for your interest and collaboration and I hope forward seeing you in Granada.

With my best wishes,

**Manuel Pérez Donsión**

Chairman of the ICREPQ Steering Committee  
Full Professor of Vigo University
