## INTERNATIONAL CONFERENCE ON RENEWABLE ENERGIES AND POWER QUALITY

Las Palmas, 13 – 15 of April 2011

# **INTERNATIONAL CONFERENCE ON RENEWABLE ENERGY AND POWER QUALITY (ICREPQ'11)**

## **WELCOME TO ICREPQ'11**

On behalf of the Steering Committee and the Local Organizing Committee we want to give you a very warm welcome to ICREPQ'11 and to Las Palmas de Gran Canaria.

Our International Programme Committee has selected a high quality 328 papers (among 497 proposals) from which 295 will be presented at the Conference, 76 at oral sessions and 219 at poster sessions (dialogue), during the three days of the ICREPQ'11. All of these papers are included in the final programme. Also six special papers will be presented in plenary sessions.

ICREPQ'11 covers the whole range of problems and solutions especially concerning with renewable energies and power quality and all the papers have direct relation with these two fields of research and practical work.

We would like to thank all the authors, session chairmen, participants without papers and the International Program Committee members who have made important contributions by reviewing the proposals.

In addition to the technical sessions, a number of social events have been arranged. On Wednesday evening (April 13<sup>th</sup>, 19:30 H) we will hold a Civic Reception with an aperitif and typical dances and on Thursday (14<sup>th</sup> April, 21:00 H) the Conference Dinner in Hotel Santa Catalina, where we will deliver silver plates and diplomas to those companies/institutions that have collaborated with the organisation of the Conference. We'll have all the lunches in a room of the same Canary Islands Convention Centre and on Friday April 15<sup>th</sup>, after 15:00 H, we'll have organised one excursion to the Vegueta, visiting the Cathedral and other interesting places of the Las Palmas de Gran Canaria.

We hope that you will find the conference intellectually stimulating, that you will make many fruitful personal contacts here and that you will thoroughly enjoy your visit to Las Palmas de Gran Canaria and the surrounding area.

Best regards,

Prof. Manuel Pérez-Donsión  
Chairman of the Steering Committee

Miguel Martínez Melgarejo  
Chairman of the Local Committee

## **AUTHORS**

We suggest that the speakers of one oral presentation prepare their material in Power Point 2003.

### **Poster Presentations**

The poster must be put on the pin board that you previously can chose about 15 minutes before of the beginning of the session and it must be take off 15 minutes after of the end of the session. The author(s) must be stay near the poster along the 45 minutes of the session duration for to answer all the questions that the audience or the chairmen could formulate. The maximum available surface for each poster will be **900 mm x 1.500 mm** (width x high).

## **SESSION CHAIRMEN**

On behalf of the International Program Committee, Steering Committee and the Organising Committee of the ICREPQ'11 and take into account their eminent position in the world of science we have selected 42 session chairmen. It is an honour for us their collaboration for to chair the sessions of ICREPQ'11 and their contribution would be greatly appreciated. We wish to express our warmest thanks.

Traditionally the Chairmen of each Session are independent in organising the Session. Nevertheless it is of special importance that the different session chairmen prepare some questions about the papers of their session in order to get a more dynamic one. Furthermore we expect of the session chairmen the following:

### **Plenary sessions**

Each plenary session should not exceed **45 minutes** including presentation and discussion, (40 minutes for presentation and 5 minutes for questions).

### **Oral sessions**

Each oral paper presentation should not exceed 15 minutes including presentation and discussion, (12 minutes for presentation and 3 minutes for questions).

### **Poster sessions**

The author(s) of a poster presentation must be stay near the poster during the 45 minutes of the session duration and in order to get a more dynamic session it is important that along this period of time each of the chairmen of the poster sessions formulate questions to the authors and check that all is OK. The chairmen also file up a sheet with puntuactions for each presented poster and then take into account these evaluations the Organizers will deliver during the Closing Session a present to the three best posters.
